Biography

Celeste Ferre is currently making magic at Disney World and has led a fun filled life. She is the daughter of Scott and Barbara, at 29 years young and with working at the most magical place in the world has chosen to be an example of spreading magic to others. She often volunteers through the Disney Volunteers program, spreading magic and kindness to those within the community, these opportunities have gone to help thousands through her work with groups like Give Kids the World, Second Harvest Food Bank and even at her Local state Park of Lake Louisa.

Her inspiration for volunteering was wanting to help those within the community and give back to the community. This comes from her childhood from the early age of 8, her and her parents have traveled the globe during summer. Visiting places like France, Italy, Japan, Croatia, and many others it was from these travels that Celeste found joy in nature and in the world.

One of her favorite hobbies was also created during these travels, and it is about dogs, but she found that while traveling people had so many unique dogs, she photographed them to remember her travels. This led to her other hobby of dog sitting for people within Orlando through an application called Rover. The magic she has lasted well through her life and within high school she found the greatest magic of all through love.

Freshmen year of high school, she was enrolled within a percussion band class and there she had become friends with the man who would be her future husband. From here, Celeste and her boyfriend at the time Daniel would go from living in Kentucky to their future home of Florida. She started her bachelor's degree in Animation from Full Sail University and after 2 years would graduate to start working at Disney World. She has led a magical life full of kindness for others and continues to create magic for everyone she meets.

Enrolling in Full Sail for a Bachelor's Degree in Animation, and graduating with that degree in 2014. This was inspired by her love of Art and she would also go on to partake within the Disney Aspire program to acquire a second Bachelor's Degree in Graphic Design.

This is Celeste starting her journey spreading magic to all those who visit Disney World at the Magic Kingdom. From here she would expand her career into other areas of the park such as becoming a Jungle Cruise Skipper, A maid at the Haunted Mansion and a captain of the Liberty Bell boat.

After starting her relationship with Daniel, freshman year of high school, she would go on to marry him 15 years later their 15th anniversary of being together. Growing up from teenagers to young adults together they continue their marriage happily to this day.

After spending her days making magic for those at Disney, she still finds time to enjoy her favorite pets in the area through her hobby of being a dog sitter. Here she is with Pancake, a golden doodle, which is just a small gold poodle dog that she has been sitting for years.

Celeste had visited the globe with her parents and feel in love with partaking in the nature and beauty of the world. Here she is gathering blueberries from a farm in Florida, and would go on to use the berries picked to make bread and other goods for her friends and community.

Working through the Disney Volunteers, Celeste is helping paint these pictures that people are coming by to help with and these will be displayed within a hospital for all to enjoy. Her volunteer work would expand from to going to a food bank, helping clean up a state park and running booths to help promote positive community within Florida.
